LONDON, March 13.—An engagement is reported to have taken place on the Danube between Rumanians and Bulgarians, near the town of Rahovo, says the Daily Mail's Odessa correspondent. A Bulgarian frontier guard is said to have fired upon a Rumanian ship, which was loading another vessel in Rumanian waters.

The Bulgarians signaled an Austrian gunboat, "the correspondent adds, "which ordered the Rumanian vessels to the Bulgarian shore. They refused to comply, whereupon the gunboat opened fire with machine guns and rifles. Rumanian troops replied to the fire. There were many casualties on both sides."

LONDON, March 13.—An agreement has been reached between Rumania and Russia which is believed to indicate the definite decision of Rumania to adhere to the cause of the Entente, according to a Bucharest dispatch to the Exchange Telegraph Company. This agreement permits Rumania to purchase war materials in Russia and to transport them to the front. It also permits Rumania to give Russia part of its territory.

## Facing All Comers.

CARRANZA IN A MANIFESTO  
HINTS STRONGLY AT A WAR.

(BY A. P. NIGHT WIRE.)

MEXICO CITY, March 13.—Gen. Carranza tonight issued a manifesto to the nation declaring that under no circumstances would the Mexican government grant to the United States a right to violate its neutrality by sending an armed force in pursuit of Villa without the consent and reciprocal privilege being first obtained and admitted. Word was sent to the confidential agent of the Mexican government in Washington to make immediate representations to that effect.

Gen. Carranza says in his manifesto: "I am sure that I interpret in this matter the national sentiment and that the Mexican people will comply in a dignified manner with their duty, be the sacrifices what they may, to sustain their rights and sovereignty, if unfortunately this drags us into a war—a war which the United States can never justify. We will not be responsible for the disastrous consequences. Upon the heads of the traitorous Mexicans who, within and without this country, have labored to produce this result, will fall the inexorable justice of the people."

The full text of Gen. Carranza's manifesto follows: "Because of the assault which Francisco Villa and the bandits who accompanied him made on the town of Columbus in American territory, burning houses and killing some of the inhabitants, soldiers, as well as civilians, the international situation in these moments is very delicate, as the Northern American press have incited their people against Mexico and the government of that country has discussed the situation in the American press, members of which have advised intervention."

"The constitutional government, which I have the honor to represent, is also occupied diligently in an effort to solve this delicate situation, trying at all costs to maintain the dignity and sovereignty of Mexico, and yet hope that this lamentable incident may be decorously arranged and that there will be no reason for an international conflict."

"It was agreed then between the governments of the two countries to permit the respective passage of armed forces, resulting in the extermination of the Indians. I have asked the American government to pursue a like course, in order to solve future difficulties, should they arise, noting that Villa and his companions are a group of bandits whose acts the Mexican government or people would not be responsible for, and that the reprehensible conduct is due to instigations of the reactionary element that, lacking patriotism and convinced of its defeat, is trying by all means to bring on armed intervention."

"The constitutional government has given instructions to its confidential agent at Washington immediately to make representations that under no circumstances will any motive, be the reasons or explanations of the United States what they may, justify the armed invasion of Mexican territory without reciprocal rights being granted to the Mexicans and that not for an instant will the invasion of Mexico be permitted."

"The Remington Arms Company, it was stated, is making 2,000,000 rifles for the army; the Eddystone Ammunition Corporation, 2,500,000 shells and the Baldwin Locomotive Company 1,000,000 steel forgings, while the Midvale Steel and Ordnance Company is also working on large orders for the United States, in addition to its foreign contracts."

Sudden Concentration of Troops Believed to be for the Purpose of Heading off Pursuit of Villa—Funston Wants to be Sure of Safe Road in Rear Before Crossing Border. Aviators to Play Important Part.

BY JOHN CALLAN O'DAUGHEN.  
(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

WASHINGTON BUREAU OF THE TIMES, March 13.—Although President Wilson is determined not to intervene in Mexico, it is no secret that in connection with the expedition ordered "to get" Villa, preparations for any contingency are being made by the War Department. The administration is seriously concerned as to the attitude the Carranza government will adopt. The "First Chief," it has developed, is not the factor in the situation to be considered. His power has been slipping from him, and policy will force him to pursue the course dictated by the views of a majority of his army lieutenants. The State Department emphatically denied today the report that Consul Hillman had telegraphed that Gen. Obregon and other leaders were conspiring to overthrow Carranza. Nevertheless, the situation of the latter is extremely precarious and in view of the anti-American sentiment which prevails he cannot afford to run counter to it.

CARRANZA'S ATTITUDE.  
As an indication of Carranza's attitude, the State and War Departments have been apprised of certain concentrations of Carranza's troops which would menace the safety of any small force that might be sent into Mexico to capture Villa. There is no doubt that these concentrations have affected the military situation and are responsible for the caution which Gen. Funston with the approval of the President, is exercising. It has been known for the past twenty-four hours that all the information gathered by the government in reference to Mexico has been transmitted to Funston. It is this information which undoubtedly has caused him to go slowly in connection with the dispatch of cavalry into the neighboring country. To send an expedition after Villa and to have its communications cut by the Carranzistas would be to invite a grave disaster. Under the circumstances, Gen. Funston and the officials here want to be sure that the road in the rear will be safe both for the supply trains of the operating columns and for a retreat should superior forces, resulting from the concentration of Carranza's troops, appear in this connection. It was announced by the War Department tonight that the Thirty-third Infantry, which has been stationed at Genoa since the war, has been ordered to El Paso to strengthen the troops at that point. In addition, instructions have been given to the mobile troops in the United States, including the cavalry at Fort Sheridan, to be ready to move at an instant's notice. The final orders for their movement will be sent tomorrow.FUNSTON OUTLINES PLANS  
FOR CAPTURE OF VILLA.

(BY A. P. NIGHT WIRE.)

SAN ANTONIO (Tex.) March 13.—Major Gen. Frederick Funston today outlined his plans for the capture "dead or alive" of Francisco Villa and his band of outlaws.

"We do not ourselves know just when the expedition will start into Mexico, although, of course, it will be soon," he declared. "It will go forward just as soon as a sufficient number of men with an adequate commissary can be organized. It will not be held back, however, until all the troops now ordered to the border have arrived."

"There is no use going at this thing half-cocked. The task ahead of us is a long and arduous one." It became known today that the plans for the campaign against Villa have been affected by the border situation elsewhere than at Columbus, N. M. The situation is important as to have hindered rapid concentration of the punitive expedition that will go after the perpetrators of the Columbus outrage.

EXCITEMENT ON BORDER.  
Great excitement has been noted. It is authoritatively stated, in the Carranza garrisons at Nogales, opposite the Arizona border town of that name, and at Piedras Negras, which fronts Eagle Pass, Tex., from across the Rio Grande.

This uneasiness has extended to the large Mexican population on the American side. Troops now stationed on the border are sufficient to cope with any situation that may arise, Gen. Funston says. However, as it is his intention to use these troops in the search for Villa and as they cannot be moved until other detachments arrive to replace them, complete organization of the expeditionary military has been held up.

Army circles feel bound to respect the fear of residents in American towns, that notwithstanding assurances from Gen. Carranza's representatives, uprisings may follow the actual occupation of Mexican territory by American soldiers. It is felt that

The Remington Arms Company, it was stated, is making 2,000,000 rifles for the army; the Eddystone Ammunition Corporation, 2,500,000 shells and the Baldwin Locomotive Company 1,000,000 steel forgings, while the Midvale Steel and Ordnance Company is also working on large orders for the United States, in addition to its foreign contracts."

## NICARAGUA OWES ENORMOUS SUMS.

Blue Book Just Issued Relates  
Woes of Republic.

Foreign Governments Demands  
Referred to America.

Debts Must be Paid, but How  
no One Can Tell.

(A. P. FOREIGN CORRESPONDENCE.)  
MANAGUA (Nicaragua) Feb. 12.—

A blue book, containing the diplomatic  
correspondence for 1914, just pub-  
lished by the Ministry of Foreign Affairs

of Nicaragua, discloses the  
details of some interesting episodes  
that bear on the obligations and

claims of the United States under its  
Monroe doctrine. They relate to de-  
mands made upon Nicaragua by the

governments of Germany, Great  
Britain and Italy for the payment of  
debts due their subjects, and to the

inability of this  
government to meet the strenuous re-  
quests. The concluding episodes have

not yet been published, relating to the  
claims of the United States in the  
affair, but are no secret.

The government of Nicaragua owes,  
and acknowledges, considerable  
debts to these foreign residents,

part for money borrowed, part for  
merchandise bought, and a large part  
for claims for damages to persons or

property. Two-thirds of the floating  
debts of the late President Zelaya  
amount to five-sixths of the bonded debt.

Upon his downfall in 1910 and the  
assumption of the government by the  
present administration, the United

States for advice and assist-  
ance, especially in relation to a settle-  
ment and payment of the floating

debts and claims, amounting on their  
face to over \$6,000,000. The American  
minister, the late Thomas C. Dawson,

sent by the State Department to  
Nicaragua for the purpose of arrang-  
ing for the payment of the debts, and

other things, that the govern-  
ment should appoint a Claims Com-  
missioner, for the adjudication and set-  
tlement of the unbonDED floating

and miscellaneous debts, foreign and  
domestic. By a convention, the Sec-  
retary of State selected one member.

The American minister, the late  
Thomas C. Dawson, who had expe-  
rience in the Cuban in-

vestiture. This commission worked  
regularly for three years, examining  
101 claims and allowing \$1,840,422

of the \$13,800,000 claimed.  
Later words it struck out and dis-  
allowed nearly six-sevenths as wa-

STANLEY BACKS KNOX.  
Mr. Bryan became Secretary  
of State and had informed himself  
of the situation he backed this mixed

Commission as strongly as any  
other man. By the end of 1913  
the commission had nearly completed

its work, but the government of  
Nicaragua, due to its distressing finan-  
cial condition, was paying none of

the claims allowed. At the in-  
stance of Secretary Bryan, in October,  
1914, Nicaragua, keeping faith with

the United States, agreed that the  
American collector-general of cus-  
toms should allocate 20 per cent. of

its customs revenues to the Claims  
Commission for payment of its judg-  
ments. The sum of \$180,000 was al-

Francisco Brookmann & Co., German  
merchants and coffee growers of  
Nicaragua, in October, 1913 that

firm refused to pay customs duties  
owed, repudiating accepted drafts,  
alleging that they had been offset

against the sum owed by the govern-  
ment. The American collector-gen-  
eral of customs (appointed as a trustee

selected importations to Brookmann  
Co., and after due time, in January,  
1914, gave the firm ten days notice

in which to pay the duties and ac-  
cepted fines, for the seized goods would  
be sold at auction, all in accordance

with the Nicaraguan customs laws.  
Mr. Von Frantzius demanded of the  
Nicaraguan government that the Ger-

man claims be paid, that the customs  
fines be remitted, and no customs  
fines for delayed payments be there-

after imposed. The Nicaraguan gov-  
ernment refused, sustaining the Col-  
lector-General of Customs. Brook-

mann paid, the case was then taken  
up with Secretary of State Bryan  
by the German Ambassador at Wash-

ington, the United States being re-  
quested to use the good offices of the  
United States to cause the German

claims, especially those customs  
fines. The matter was referred  
through diplomatic channels back to

Nicaragua who answered that it could  
not accede, because if it did there  
would be hundreds of other similar

claims presented by foreigners and  
natives, and that such a left-handed  
attempt to force payment through the

United States would not only deprive it  
of its living income but would give pre-  
ference to floating debts over its bonded

debt for which the customs revenues  
were in part pledged. Whether it had  
any connection with this case or not

is not known, but it was a coincidence  
that Von Frantzius was shortly after  
recalled home by his government.

The Blue Book gives the corre-  
spondence relating to the demand Ni-  
caragua made on Germany, at the same

period, beginning November 20, 1913,  
for the recall of the German Vice-  
Consul in Managua, Karl Ueberberg.

The German Minister demurred,  
claiming Ueberberg was persona non  
grata. Germany thereupon acceded,

naming another consul who was ac-  
cepted. One of the charges against  
Ueberberg was that he had fomented

the illegal transfer of a claim for  
damages by a Nicaraguan citizen  
named Cerda, to the German Vice-

Consul, Wies, at San Jose, Costa Rica,  
and the Consul Ueberberg was pre-  
sented to the German Minister, who

that of a German subject. The claim  
originated in a concession for a rail-  
road from the great lake to San Juan

del Mar, which was granted to Cerda  
which never a stroke of work was  
done, but for which Cerda claimed big

damages for its cancellation. The gov-  
ernment of Nicaragua asserted this  
transfer of a claim in violation of

Wies was a pretext and that Ueber-  
berg's sustenance in his character of  
consul of Wies's allegations was not

friendly. Another charge against  
Consul Ueberberg was that he was  
mixed up in a conspiracy of some

Nicaragua revolutionists to dynamite  
President Diaz and his Cabinet on  
October 29, 1913. The Minister of

foreign affairs asserts in so many  
words that Ueberberg was an intimate  
of the Dictator Zelaya and had anti-

of which has been made  
necessary by the shortage due, it  
is ascertained, to speculators

holding out for higher prices,  
will take their place alongside  
the bread and butter cards in

Berlin on March 20. The first

What the outcome will be is a  
problem. If the debts to foreigners  
are not paid by the time the Euro-

pean war ends, or if the war  
thereafter, which seems improbable,  
it is feared the European governments

will press for payment again. It will  
then be a pertinent question which  
of the United States will have to meet

through the State Department,  
whether the Monroe doctrine means  
anything or not.

## American Defenses.

(Continued from Second Page.)

clinging around like buzzards, one aero-  
plane always in sight of the next,  
ready to give warning as to which

point the enemy intends to hit. By  
this time, our aeroplanes should have  
worked out air maps showing the pre-

valuing air currents among the  
coast. Every army aviator ought to  
know every foot of the coast from

Vancouver to San Diego. If he does  
not thoroughly know what looks  
like normally, he can't detect suspi-

cious changes in its appearance. So  
far no progress has been made toward  
this result.

Although most army officers have  
an idea that the Germans did not use  
cavalry at all during this war, such is  
not the fact. Germany gained her

foothold in France purely by speed.  
She got into France before the French  
could get there so to speak. This

speed was achieved by the physical  
condition of her infantry and the  
good use of the cavalry.

Directly following the capture of  
Brussels, the Germans sent a wonder-  
ful flying column racing toward the

channel. The column consisted very  
largely of Uhlans. Contrary to the  
general idea, it had all kinds of thril-

ling mounted battles against the En-  
glish cavalry. Also it found that its  
faith in the lance as a cavalry weapon

was fully justified. In the defense of  
a long coast line, one might take a  
lesson daybreak or earlier and meet

the German infantry enabled it to  
make the most incredible marches,  
once, as you remember, going to

the front and back of the British  
armies would simply walk them off  
their feet and into a hospital. I don't

believe the regulars would do a whole  
lot better.

HARD TRAINING NECESSARY.  
Our soldiers detect practice marches  
and will desert if they get very many

of them. German soldiers march all  
the time. I used to hear them going  
out to the front and back of the

armies would simply walk them off  
their feet and into a hospital. I don't  
believe the regulars would do a whole

lot better.

Our officers are not inferior to the  
German theorists. The difference is  
that behind the plans of the German

officers is a whole country, the Ger-  
man people, who are mobilized. When  
a railroad entered into their plans

they had a military railroad already  
in the plans. All arrangements had been  
made long before. It only remained

to make the plans come to life.  
We have plans, but nothing to work  
with them. We have no system of

mobilization and nothing to mobilize.  
In the next article we will see how  
well the Chamberlain and Hay bills

provide for these deficiencies.

Attack on Columbus Published  
in the Capital Press.

Papers Favor Invasion by the

Declare Co-operation with Car-  
ranza is Necessary.

(BY A. P. NIGHT WIRE.)  
MEXICO CITY, March 12.—The  
news of the attack on Columbus by

Villa and his followers was first made  
public here this morning, when the  
official organ, El Pueblo, published the

text of the note of the Mexican gov-  
ernment asking the government at  
Washington to permit the passage of

Mexican soldiers into American ter-  
ritory if such became necessary in the  
pursuit of Villa, and at the same time

granting to the United States the  
reciprocal privilege of entering Mexi-  
can territory for the same purpose.

Under the caption "The Columbus  
case—Request of natives and work-  
ers," El Pueblo says editorially:

"The infamous and traitorous work  
of reactionaries in the United States  
has finally reached its most abhorrent  
point. Because they were impotent

to stem the military and political  
triumphs of constitutionalism, they  
have tried to force armed interven-

tion by the United States in the affairs  
of Mexico, in an endeavor to regain  
their lost power.

"These enemies of civilization and  
liberty conspire against the harmony  
and peace that ought to prevail be-

tween the two peoples, who, because of  
their inclinations, culture, ideals and  
geographical position, are called upon

jointly to share the task of working  
out the destinies of this Western  
Hemisphere.

CONVINCED OF CO-OPERATION.  
"The invitation of the Mexican gov-  
ernment, founded as it is, in interna-  
tional practice, for the purpose of

securing for itself public vengeance.  
We are profoundly convinced that the  
American government, maintaining

its policy of respecting toward the  
Mexican government and will com-  
bine with it to take such action

as circumstances warrant.

"In this way the misery of war thus  
provoked by the criminal maneuvers  
of the enemies of both countries and

both peoples will have been averted.  
At any rate, we can assure the whole  
world that Mexico will never lose her

international citizenship because be-  
fore that, she would prefer to suc-

#### IF YOU WORRY, READ THIS

Worry never brought any good to anybody. But, you say, "I don't worry because I want to." Or, "I worry because I have so much to worry about."

We all have our troubles and worry, of course, makes matters worse. The patient physician recognizes this fact without being influenced in any way by it.

The doctor who could make this nervous condition and cure it would be the most popular medical man alive. But he can not do it because the form of nervousness is not known as a nervous condition, which is a characteristic symptom, must be cured by the patient himself. That is why you should write today for the book "Diseases of the Nervous System," and read the chapter on "Nervousness."

So many people have read it and written back, "This hits my case exactly. I am giving the treatment a trial and being cured," that the Dr. Williams Medical Co., Schenectady, N. Y., has had a lot of these books printed and will send you a copy free on request. Ask for a die book also if your stomach is off.

Dr. Williams' Pink Pills are a powerful tonic, particularly suited for nervous, neurotic people. Your druggist sells them or they will be mailed postpaid on receipt of price, 50 cents per box, six boxes for \$2.50.

can territory or an outrage to its dignity be tolerated.

"I am sure that in this I interpret the national sentiment, and that the Mexican people will worthily comply with their duty, be the sacrifices what they may, to sustain their rights and sovereignty."

"If, unfortunately, we are dragged into a war which the United States never can justify, we will not be responsible for the disastrous consequences, but will serve as instruments for Mexican traitors within and without our country, who have labored long to procure the result, and upon their heads will fall the inexorable justice of the Mexican people."

CARRANZA'S REQUEST.

(BY A. P. NIGHT WIRE.)—Gen. Carranza's request for permission to send Mexican troops into American territory to pursue bandits who escape across the border will be considered by President Wilson and Secretary Lansing tomorrow.

It has been considered practically certain that the reply would be to the effect that American troops were only being sent into Mexican territory in pursuit of the Villa outlaw because the de facto government of Mexico did not have sufficient forces on the scene to deal with the bandits, and that whenever bandits should cross into American territory where there was not sufficient Mexican soldiers to take them into custody, the right of entry would be accorded Carranza troops.

This, it is believed, will be satisfactory to Carranza and make it possible for him to acquiesce in the operation of American troops into Northern Mexico without stirring up popular resentment among his people against him.

#### War With Mexico.

(Continued from First Page.)

It is feared that should Carranza decide to allow Villa there will be a general massacre of Americans and to such circumstances it is not at all improbable that other foreigners would suffer.

TO CONFER WITH LANSING

When the President returns tomorrow he will confer with Secretary Lansing in reference to Carranza's proposal to allow Carranza to send troops into the United States in pursuit of any Villistas who may be seeking to escape. There are many objections to the acceptance of this proposal. Whether the United States can authorize a foreign force to enter American territory is a serious question which is disturbing members of Congress.

The State Department is of the view, however, that in view of the precedents which exist and which have been rectified by Gen. Carranza, it is quite within the province of the President to authorize a command of the "First Chief" to continue on the trail of an enemy, even though that trail crosses into Texas, Arizona, New Mexico or California.

There is grave danger also that the sentiment against the United States will find expression in American opinion upon their own soil. But the administration holds that this situation can be met when it arises, moreover, the proposed division of the support to Carranza, his position will be strengthened by the Mexican people.

In view of the time which has elapsed since the army War College say it makes no difference now when the American troops start after Carranza. The War Department has apprehended from information it has received that Carranza has dissolved his army into small bands, this for the purpose of maintaining Carranza's position, therefore, to rely upon the intelligence department, which Gen. Funston has established, to use the wireless for picking out camps and wiretapping the facts to the commander of the expeditionary force.

VILLA AT ASCENSION.

According to information received by the State Department, Villa was at Ascension in Chihuahua yesterday morning. Carranza's agent in Washington, Senor Eliseo Arredondo, reported a letter from Carranza stating that Carranza was at Ascension, thirty-five miles south of Ascension, yesterday, making his way toward Casas Grandes, where the region Carranza forces had been sent.

It is a most unfortunate fact that the wireless outfit supplies to the troops in the region Carranza forces had been sent.

It is likewise unfortunate that the machine guns which were being used by the expeditionary force are being used by the expeditionary force.

Secretary Baker spent most of the Sabbath in the War Department conferring with Maj. Gen. Scott, chief of staff, and heads of the different bureaus. The question of the different quantities of military supplies, their delivery contingent on developments, and the quantities of a number of things necessary to the conduct of an extensive campaign in the field and in the region Carranza forces had been sent.

The question of money also is being considered. The department says it will go into market to buy supplies for the punitive expedition in Mexico.

Foreign diplomats are watching with intense interest the development in connection with Mexico. There is little doubt that every element being made to induce Carranza to join in fighting the United States. The allies make no secret of their desire that this country shall not intervene. They do not want their orders for munitions disturbed. The diplomatic corps of the United States, on the other hand, are delighted by the prospects that this government will be involved in this region. They expect a stoppage or at least a restriction of the flow of munitions to the allies, but they believe this government will do no better than to let the train from pressing too far the questions existing and certain to develop in connection with submarine warfare.

## INVASION OF ELSINORE STARTS OFF THE SEASON

### ATHLETES WORK OUT AT ARARAT.

Chance's Men Complete Voyage to Elsinore.

Beef Koerner Suffers a Mishap En Route.

International Trouble Avoided with Difficulty.

BY HARRY A. WILLIAMS.  
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

EL SINORE, March 12 (by wireless and cable to the United States).—A kidnapping on the upholstered seats of a sleeping train, the main body of the Los Angeles ball club arrived here in time for the noon lunch today. All did justice to the same.

**HOT CROWD.**  
There were no less than fourteen athletes, one assistant manager and three representatives of the free and untrammelled press in the crowd which came to this place today. In addition to these there were several persons aboard the common carrier who had no connection with the ball team and the names, callings, nationality and politics of the same are unknown. They seemed to be traveling down this way for the pleasure of bumping the bumps.

The railroad is new, considerable of the way and there has not been time since it was first put into operation to attend to other minor details. The train was in the trough of the sea much of the time and when not going up hill was going down. Several of the athletes, who are not used to this kind of riding were threatened with seasickness and came near coughing up their breakfast which had been eaten in Los Angeles. However, by summoning all their moral courage they were able to avert this pending calamity and arrived here with all the nourishment taken still on board.

**CALL THE ROLL.**  
Athletes in the party were Brooks, Standridge, Basler, Butler, Scoggins, Larson, Shellenback, Thompson, Koerner, Galloway, Oscar, Horstman, Ware, Johnny Williams and Rapp. All these arrived in a raw and uncooked state and were served very rare in the preliminary workout which was staged this afternoon. Awaiting them here were Frank Chance, the main man, Jack Ryan and Earl Maggart, who are well done as a result of having been alternately boiled and fried for a week. The system here is to try an athlete on the unpurged ball field and then coach him for a couple of hours in hot mineral water. This is said to be good for a person.

While the main body of the players is on the ground or in the water, there are still numerous recruits to report. Among these is Polly McCarty, the famous underdog from Chicago. McCarty, who is only and therefore leading underdog, appointed himself a committee of one to meet McCarty at the depot but was unable to carry his plan through, mainly because Polly failed to arrive. Mr. Clark is prepared to render first class assistance to the new recruits. His establishment is second to none in Elsinore. Not only can an athlete training here be fried and boiled, but he can get creamed later should he so desire. Chance considers conditions here ideal. They have everything needed for tourists and ball players either dead or alive. Those contemplating a visit can bring along their dead relatives just as well as not, if they have any.

**SOME SYSTEM.**  
Under the present system of navigating railroad trains between Los Angeles and this place, progress is necessarily somewhat slow. Those desiring a change should come to Elsinore and see the system. When not actually changing trains the athletes were standing at attention and awaiting

**PULLMAN MEN COPY DIETZ.**  
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

SEATTLE, March 12.—Sales of dress suits at Pullman to the youth of that neighborhood and the students of Washington State College have increased more than 1000 per cent. since the arrival of one Lone Star Dietz, football coach, says F. P. Maguire, a rancher of Pullman who is a guest at the Seward. Mr. Maguire says Dietz's example as a Beau Brummel has been followed to such an extent by the young men that the clothing stores and tailors are figuring on increasing their capital stock and declaring extra dividends.

"Besides turning out a winning team, Mr. Dietz has set such an example of dress to the youth of our district that in a short time Pullman will be the recognized fashion center of the State," declared Mr. Maguire. "While Mr. Dietz is a dresser and has a change of clothes for every hour of the day, he shrinks from notice, and I know of several occasions when the citizens of Pullman went out to meet the train to do him honor, only to find he had slipped off the train at Colfax or Spokane to avoid the brass band and conquering hero festivities."

**DEL MONTE COURSE IS IN FINE SHAPE.**  
[SPECIAL CORRESPONDENCE.]

DEL MONTE, March 12.—In preparation for the much talked of Western Golf Amateur Championship matches to take place in July, in which many of the country's best-known amateurs will compete, new bunkers and traps are being made on the Del Monte course and several of the holes are being extended. The alterations will make the Del Monte course one of the sportiest in the entire country.

There has been a rumor prevalent in Southern California that because of these alterations the links are unplayable at present. However, this is entirely wrong as they are in better condition than ever before and fourteenth holes are always in play.

### VERNON TIGERS START TO WORK.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

SANTA SUANA, March 12.—Manager Ham Patterson and twenty-two ball players arrived from Los Angeles at 4:30 o'clock this afternoon for a week of training on Eddie Maier's Rancho Seletto. The party was taken to the training camp in autos and ranch wagons, a distance of about two miles from the station.

Trainer Shins Scott had the camp in order ready for the players and actual training will start with a hike over the hills tomorrow morning. Joe Romero, the barbecue king, had a monster barbecue feast prepared for the hungry crowd and the rule was early to bed.

The ball field has been laid out over a mile from the bunkhouse and the players will have additional exercise running back and forth from the diamond. Workouts on the diamond will take place each day from 1 to 3 or possibly 3:30. The boys tossed the ball around a little before supper in order to take off the curse of starting training on the thirteenth.

Jack Quinn swears he will get some practice at the traps with a scatter gun while up here. Jack is one of the baseball shotgun artists and claims to be in need of eye practice. The traps and the clay birds are here, but whether Patterson will allow trap shooting to interfere with the diamond workouts or not is a question.

Jack Bliss was on hand to give the arriving players the glad hand and will work out with the bunch. Jack appears to be in fine shape and should be able to land a job with some club. Here is the list of boys who made the trip:

Pitchers—Fromme, Gilligan, Hess, Quinn, Deconiere, Chief Johnson, Elget of his Portland. Coast League ball players will work out with the bunch. Jack appears to be in fine shape and should be able to land a job with some club. Here is the list of boys who made the trip:

Catchers—Spencer, Whaling and Coleman. — Bates, Gleichmann, Griggs, Flick, McGaffigan and Patterson.

Outfielders—Taley, Mattick, Doane and Schalk.

Hitt, Risberg, Rader, Mitze and McElroy are expected on the early train tomorrow morning.

**MCCREDIE HOPES FOR A GOOD TEAM.**  
[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

PORTLAND, March 12.—Confident of a successful season and promising of the fans a team that will finish first or second, Walter McCredie led eight members of the city, bound for Sacramento tonight. In the party were Fisher, Haworth, Bartholemey, Houck, Clark, Noyes, Gregg and Harward, besides McCredie and two newspaper men. The two University of Oregon athletes, Lytle and Carson Bigbee, joined the party at Eugene.

Three or four of the Beavers likely will be a few days late, but as orders have been given for wholesale reporting March 14, the real workouts will commence Tuesday. The first Portland training games will be played next Saturday and Sunday.

"For the first time in several seasons I am able to view the situation at the opening of training without quaking," said McCredie tonight. "And I really believe we have gathered some good material for this year's team and I feel safe now in saying that having accidents, we will be one, two in the pennant race."

### CAP LOOP WHANGS ANOTHER WHALE.

**FAMOUS RUBBER HUNTER GETS A TROPHY.**

One of Five Whales Which had been Making Fishing Dangerous in Mid-Channel is Blown to Bits by Three Shots from the Husky Pump Gun of the Captain.

[SPECIAL CORRESPONDENCE.]

LONG BEACH, March 12.—One of the school of five whales that has been making fishing dangerous in mid-channel for the small boats that daily leave this port in search of the herring and yellowtail between here and Catalina Island, was killed yesterday by Capt. John D. Loop, Long Beach's famous whale hunter.

A number of boats stood off 200 or 300 yards while their crews witnessed the fight and execution of the monster, which was accomplished about twelve miles out in a southeasterly direction from the Long Beach pier.

Although a fountain of blood rose from the whale fifteen feet into the air following the first shot from Loop's powerful whale gun, the leviathan stormed and threatened the criminal whaling boat.

Expired with two more loads from the bomb ejector in his sides. The whale measured forty feet in length.

Capt. Loop intended to keep and embalm the sea mammal, for exhibition purposes, but the final bomb that exploded in the California gray tore its flesh so badly that he immediately towed it to the fertilizer works, where he disposed of it for a good sum.

**CONVICT PLAYERS LOSE FIRST GAME.**  
[BY A. P. NIGHT WIRE.]

SAN QUENTIN (Cal.) March 12.—For the first time in the history of San Quentin penitentiary the prison baseball team played a game today with an outside team, the Independents of San Francisco, made up largely from Coast League clubs. The convicts lost 10 to 15, but played a good game.

No. 25,457, who umpired the game, won golden opinions from players and spectators by the promptness and fairness of his decisions.

### FULLERTON WINS FROM SAN PEDRO.

[BY DIRECT WIRE—EXCLUSIVE DISPATCH.]

FULLERTON, March 12.—The Fullerton baseball team defeated the San Pedro Merchants here this afternoon and eliminated another contender for the semi-pro championship title of Southern California. The score was 1 to 2.

In spite of the bothersome right hand, which has been troubling him since it was struck and injured by a ball several weeks ago, Kahler pitched a clean game and held the Merchants to four hits. Hitt's pitching was a trifle ragged at times and the locals had little trouble in finding his offerings.

During the first part of the game the fielding of the San Pedro was a little shaky, but Kahler pitched a clean game and held the Merchants to four hits. Hitt's pitching was a trifle ragged at times and the locals had little trouble in finding his offerings.

The fourth error was charged to Callan, who made a wild throw from third to first. Rader held down second base until the seventh and Ayres filled out the rest of the game.

The committee has also announced the pairs for the first flight as follows: Phillips plays Burrage; Kerr plays Gay; MacDonald plays Burke; Rader plays Power; Hornby plays Boyd; Clyde plays Aymer; Williams plays Smith; Hotchkiss plays Staufen.

L. R. Boyd and G. W. Clyde tied the sweateaters yesterday, in which there were twenty entrants. They came in with a net of 74, which is two below par. Russell Burrage was next with 75.

**BANKERS' BASEBALL LEAGUE IS FORMED.**

The Los Angeles bankers' baseball team was officially organized last night at a meeting held at the National Bank of California. A. G. Maurer was elected president; E. S. Murry, vice-president; and William Bolstad, secretary and treasurer.

Only bank men will be allowed to play in the league and some exciting games are anticipated. The teams entered in the league are as follows: Farmers' and Merchants' National Bank, Hibernian Savings Bank, German-American Trust and Savings Bank, Los Angeles Trust and Savings Bank and the Security Trust and Savings Bank.

AND ENVIRONS.

## EVENTS BRIEFLY TOLD.

## To Meet Today.

The Juvenile Protective Association will hold an open meeting at 10 o'clock today at the Hotel Clark. The committee on special cases will report and a general discussion will follow.

## Disruptive Partnership.

George J. Denis and Max Loewenthal announced the dissolution yesterday of the law firm of Denis & Loewenthal and the removal of their respective offices from the Wilcox Building to the Title Insurance Building.

## Buckeyes to Meet.

The Ohio Society Dramatic Club will present the one-act farce, "The Great Daughters of the Republic," at the meeting of former residents of the Buckeye State tomorrow evening in the Fraternal Brotherhood Building. There will also be a special musical program.

## On National Defense.

Debate teams from the University of Arizona and the College of Law of the University of Southern California will try conclusions tomorrow night at the Elbell Club House. The subject is "Resolved, that President Wilson's Plan for National Defense is Adequate." Fred W. Pickett and J. Preston Jones will represent the University of Arizona, and Claire Eberhard and Myron Silverstone the local institution.

## Chance to Join Guards.

Young men of Los Angeles who desire to join the National Guard of California will be given an opportunity to file their applications for membership with Capt. H. T. Balthey of Co. F, Seventh Regiment, at the Army tonight or next Sunday. Capt. Balthey stated yesterday that he is planning to increase the strength of his company, which now has a membership of fifty men, to 150.

## ROOSEVELTS TOUR

## TRINIDAD ISLAND.

## THE ATLANTIC CASE AND A P.

PORT OF SPAIN (Trinidad) March 12.—Col. Theodore Roosevelt and Mrs. Roosevelt have been busy during the past week visiting places of interest in Trinidad. They have been everywhere enthusiastically received. At a banquet at the Union Club, a commercial and agricultural body, Col. Roosevelt said international progress depended just as much on the refusal to submit to international wrongdoings as it did on refraining from committing a wrong. He added:

"If a nation is powerful, either to hold its own or to secure respect for the rights of others, or to do right within its own borders; if it falls into a condition of anarchy or if it has no right to be treated as a self-respecting and independent power. In international matters we shall have to take steps with regard to disorderly nations that do not behave themselves and are fostering a sore in the international body politic."

## AFIRE AT DOCKS.

## [BY A. P. NIGHT WIRE.]

ST. JOHN (N. B.) March 12.—The British steamer Matanza, which was about to leave for New Zealand today, was found to be on fire today in one of her forward holds. The cause of the fire has not been ascertained. It is feared that the damage will be heavy.

## EARTHQUAKE RECORDED.

## [BY A. P. NIGHT WIRE.]

BUFFALO (N. Y.) March 12.—An earthquake shock, probably in the Caribbean Sea, the West Indies or Central America, was recorded on the seismograph at the Canadian Coast today.

## THEODORE VOORHEES.

## [BY A. P. NIGHT WIRE.]

PHILADELPHIA, March 12.—Theodore Voorhees, president of the Philadelphia and Reading Railway Company, died suddenly at his home in Elkins Park, a suburb, late last night. Mr. Voorhees recently underwent an operation in Minnesota and returned to this city about ten days ago, apparently in good health. He is survived by a widow, four sons and four daughters.

## The English Royal Salute.

[Pittsburgh Gazette:] The origin of the English royal salute, which consists of 191 guns, is explained as follows by Lord Fisher: It was originally decreed that the sovereign should be saluted with 100 guns, but when the Duke of York, afterwards William IV, was being greeted by the fleet, the officers in charge lost count, and ordered another round to be fired to make sure.

## P. E. Singer, of London, Eng., is

stopping at the Clark for a few days. E. W. Morrison of Hong Kong, China, arrived at the Roslyn yesterday. W. A. Fairburn, president of the Diamond Match Company, of New York, arrived at the Alexandria last night. Because of the rigors of the transcontinental trip he retired early.

Coming ostensibly to negotiate with local theatrical and musical men regarding the launching of a musical enterprise, the nature of which he will not disclose, Rudolph Aronson, prominent impresario of New York, arrived yesterday at the Alexandria. Mr. Aronson is probably best known as one of the first managers of the Metropolitan Concert Hall of New York, and of the Casino Theater of the same city.

## Myths About Dragons.

[London Chronicle:] The mythology of dragons (may the city of London always keep hers) is immensely mixed. The one thing certain seems to be that of the many writers who describe them not one ever saw them. Many of the descriptions come nearer to a winged crocodile than anything else, and the conjecture that the dragon idea was developed from some tradition of an extinct saurian seems probable enough. In the highly imaginative gypsy lore of Southeastern Europe, the "drakos" becomes the ocre of the nursery; he takes a human wife, hunts in an expert in horsemanship, and lives, of course, in a palace. Andrew Lang pointed out that the modern Greek story of "the last drakos" is the same as that told in Scotland of "the last Pict."

# CONTRIBUTIONS FROM THE PAST.

Buried Statue of Horse Found in Imperial Valley.

Believed Work of Prehistoric Native Craftsman.

San Nicolas Island Researches Yield Rich Returns.

A finely carved stone horse, seven inches long and four inches high, was discovered last week by State highway employees while screening gravel for the new Imperial Valley road along the Salton Sea. It is now in the possession of Engineer Cummings of the road force.

The mass of the miniature horse stands out from the right side of the neck as though carved by the wind, while the carving of the head, neck and ears shows exceptional craftsmanship. The fact that the statue was brought up from the bottom of a deep pit leads amateur archaeologists to believe it is the work of some prehistoric Indian sculptor of the section.

Because of scientists' possible interest in the find, the statue will probably be brought here this week for inspection by authorities on Americana.

During their stay on the islands the men opened scores of ancient graves and brought back with them an as yet unclassified collection of mortars and pestles, wampum, "feet" recording stones, arrow points and knives, flint knives, flutes, paint-pots, bone boxes, bone and abalone fish hooks, abalone ear-rings, and many other relics that have not yet been identified by the hunters.

The Indian war clubs studded with pearls were found in one grave, together with several treasure boxes, one of which was a small wooden box containing a bone pipe, a five-toothed shell and a bone idol, the last of which is presumably an object of worship to the natives.

To all appearances the skeleton of a "bride" of a man who died in the early part of the century was found in the same grave. The skeleton was in a casket, and the casket was in a casket. The skeleton was in a casket, and the casket was in a casket. The skeleton was in a casket, and the casket was in a casket.

The valuable blister pearls, probably several hundred years old, were unearthed. Capt. Chappel states that the Indians of San Nicolas buried their dead in a stooping position with their arms crossed and the knees bent. The body was not in a casket, but was placed in a casket. The body was not in a casket, but was placed in a casket.

The latter part of January Capt. Chappel states that three market men from the mainland, coming from the island, were captured in the harbor and that two of the men were executed. The third man was released and remained on the island. The man was released and remained on the island.

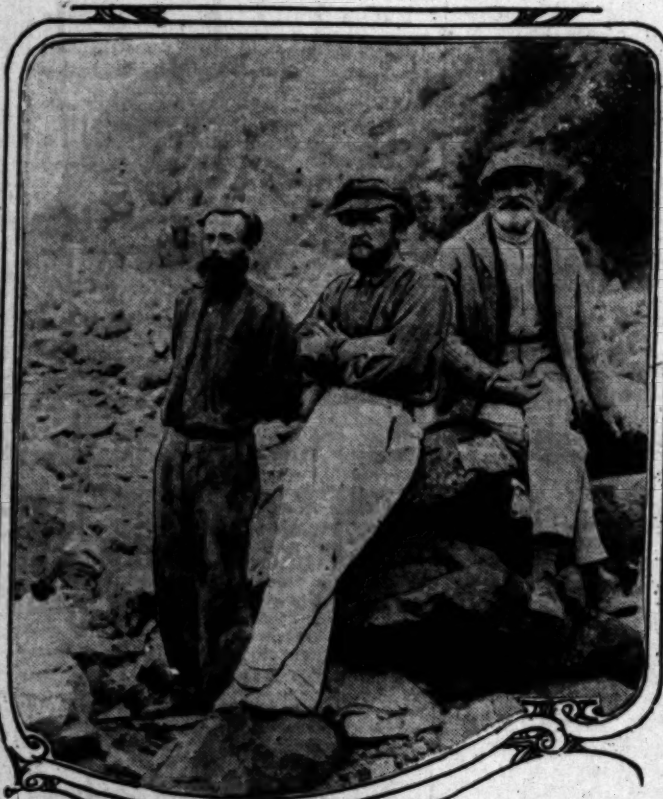

Exports from the island are now of greater importance than ever before, owing to the fact that two valuable life-time licenses were destroyed in the fire.

The collection brought back by the party is considered by those who have seen it to be one of the most complete collections of the now extinct island life.

## HER LOST BROTHER AT END OF QUEST.

REUNION COMES AFTER THIRTY YEARS SPENT APART.

Advertisements Fall Woman Who Hunts Relative, but Letter to Texas Mayor Turns the Trick in Few Hours—Shock of Meeting Unnerves Her.

Signs read in the cards four years ago by a fortune-teller who said there would be a long journey and a meeting with someone he had not seen for years, came true for Harry J. Harmer of Houston, Tex., when he arrived in Huntington Park last week and renewed acquaintance with his sister, Mrs. Louisa Lane of No. 453 South Rugby avenue, after an absence of thirty years, during the last ten of which brother and sister were as dead, neither knowing the whereabouts of the other.

The reunion was due to the effort of Mrs. Lane, who has made a constant search for some years past. Three years ago she came to California from Mayfield, Eng., the home place from which her brother went out into the world thirty years ago, when he was but 18 years of age. For a short time he corresponded with his mother, but when she died his address was lost and the five remaining brothers and sisters gave him up for lost.

Mrs. Lane, however, retained her faith and when she came to America, advertised widely in newspapers. Her efforts met with no response until she had a "hunch" on January 29, to write a letter to the Mayor of Houston, Tex., as a last resort. She had heard Mr. Harmer had been in Texas, so she took a chance.

The Mayor did not know Mr. Harmer but he turned the letter over to a Houston paper, with the result that the brother was located within a few hours. He had been in that city twenty-six years, the last twelve of which had been spent in service with Company A, Third Infantry of the National Guard, as cook and storekeeper. He immediately secured a two-month leave of absence and followed a telegram to his sister.

She was so affected by the receipt of the message that she became ill and was several days in bed.

## The last club and gold offer of The Times auto campaign!

OPENING TODAY:

# 80,000 Extra Votes

will be given for each club of new subscriptions totaling five years, to The Daily Los Angeles Times. To make a club, any new subscription from one month to two years in length may be included. Every subscription must be bona fide new, and will be verified before extra votes are issued.

This is positively the last club offer that will be announced. Make the most of it. The winning votes are now obtainable.

No limit to number of clubs a candidate may secure. Offer closes March 22, at 9 p.m.—ten days of wonderful opportunity.

# \$75.00 in Gold Free

will be given to the candidate, who during the same ten days, turns in the largest total sum of new subscription payments. The huge success of the campaign thus far prompts the management to repeat this wonderfully liberal gold offer. The \$75 can be won by any candidate, no matter where she stands in the list now. No other gold offer will be made.

Do you realize what this offer means? Gold—plenty of it—votes—by the thousands—and an automobile in the end.

If you are already entered in this campaign, start today to make good on this special offer. It means making good later, when the cars are distributed. If you are not a candidate now, enter today, and take the short cut to victory.

Offer Closes March 22, 9 P.M.—Campaign Ends March 29

## How to Tell the Difference Between "Old" and "New" Subscribers

AN OLD SUBSCRIBER is any person whom The Times was being regularly delivered either by The Times or one of its route men or agents, or by mail, on the opening day of this campaign (January 12, 1916). It makes no difference whether payment for the paper was being made by the month or for a longer period; whether at the beginning or the end of any given period of time; whether to The Times office direct, to one of its agents, collectors or route men, or by mail.

A NEW SUBSCRIBER is any person who began to regularly receive The Times SINCE January 12, but was NOT regularly receiving it on and just preceding that day. Any person who has subscribed to The Times, in the past, but stopped the paper BEFORE January 12, and renews SINCE that day, will be considered a new subscriber, just as would any person who has never taken The Times before.

ALL NEW SUBSCRIBERS, having ordered the paper during this contest for a short period, who desire to lengthen their subscription by making a second payment, will still be classified as new subscribers. Once new, always new, as far as the purposes of this campaign are concerned. On the other hand, an "old" subscription likewise will always continue to be old.

Persons buying The Times at newsstands or on the streets are not considered regular subscribers. Subscribers to the Sunday Times only, who change to The Daily, or Daily and Sunday Times, thus become new subscribers, regardless of when they began taking the Sunday only paper.

Candidates must make a thorough investigation of every subscription they secure, before marking it either "old" or "new." Out-of-town candidates can verify subscriptions by consulting The Times agent in their territory. When you mark a subscription, BE SURE IT IS RIGHT.

Under no circumstances will the practice of "switching" subscriptions be tolerated, and attempts to thus gain extra votes will prove utterly useless in the end. Some candidates are under the misapprehension that, if The Times is going to a certain address and is merely changed to another member of the family or household or any other person at the same address, such procedure will make a new subscriber out of an old one. It is utter fallacy.

The object of adding New Subscribers is to increase the number of names to which the paper is sent. But, if you have three apples, and eat one, replacing it with a fresh apple, you still have three apples, haven't you?

## The Drug, Caffeine, In Coffee Is A Habit-Forming Agent

Bulletin 393, U. S. Department of Agriculture, entitled "Habit-Forming Agents," referring to caffeine and other ingredients used in the manufacture of certain soft drinks, headache mixtures, etc., says:

"Until recently it was claimed by some that these agents were harmless and did not belong to the habit-forming group. Later investigations, however, clearly show that this position is unwarranted."

The average cup of coffee contains about 2½ grains of caffeine. Mothers give it to their children and wives give it to their husbands—unconscious of the harm coffee does to health.

When the nerves cry out, or indigestion, biliousness, headache or heart flutter begin to trouble, it's time to look to the cause.

An easy, sure way out of coffee troubles is to quit the coffee, and use

# POSTUM

—the pure cereal food-drink.

There are two forms of Postum. The original Postum Cereal must be boiled; Instant Postum is quickly soluble in hot water, more convenient to prepare, and has the same rich flavor as the original Postum. Some prefer one form, some the other; both are free from the habit-forming drug, caffeine, or any other harmful substance, and the cost per cup is about the same.

## Second Payment Scale

Every candidate should clip this scale and paste it in her receipt book for future reference as it will be the means of securing thousands of votes. Hundreds of new subscriptions for short terms have been secured by the candidates since this campaign started. Get these short term new subscribers to extend their subscriptions to any length of time up to and including two years and you will be given credit for the full amount of votes.

All second payments "new" will be credited on the offers now in effect for the amount of subscription payment made during the offer. When sending in second payments be sure to mark the stub "New second payment."

| New subscribers who have paid | New extending their subscription and paying | Making full payment for | Will entitle candidate to regular vote credit as follows: |
